

BMD CARIS™ TipWasher

The BMD CARIS™ TipWasher is a high performance washing module with an additional ceramic coated tip exclusively dedicated for washing your IFA slides.

The new TipWasher provides greater flexibility allowing you to run a larger number of slides; as well as increasing the number of slide types per run. This makes the CARIS™ the most efficient IFA processor on the market.

Contact Diagnostic Solutions for a quotation to upgrade your system. www.diagnosticsolutions.com.au

CARIS™ TipWasher

Capacity:

- Up to 20 x 18 wells slide per run
- 3 externals buffer
- Up to 10 different slides per run
- Can manage high diameter "in-house" slides

Connection:

- Plug and play module
- Can be retrofitted to instruments already installed

Software Compatibility:

- ATX
- FPX

Catalogue Number:

- BM-CR100813

Feature	Current wash step	TipWasher
